

1)K-love radio (89.7,103.1, & 89.5) is the only radio station we listen to, because it is family oriented and "safe" for kids of all ages to listen to.

2)Taking K-love off the air would be devastating. We would be left with programming that is continuing to use their 1st amendment rights in perverse, anti-Biblical ways. Completely inappropriate for people of all ages, especially children.

3)K-love is the only radio station in the area, I can have on all day without worrying what my kids will hear. Including news which can sometimes scare little children. For example, when 9/11 happened, K-love warned parents that they were going to announce something that might upset young children and we were given 30 seconds to either turn the radio off or escort our kids out of the room. For the rest of the day they resumed normal programming, continually prayed on the air for the situation and gave updates as needed. Instead of gorrifying/horrifying like every other medium chose to do.

In short, please keep K-Love available across the country and on the air.

Sincerely,  
William and Carrie Liebich
